

Speaking Assessment · 一页 A4 备考提纲

核心策略：每题结尾埋钩子 → 引导导师顺着往下问（你带节奏） | 隐形得分项：① 口头引用「作者+年份」放信息前 ② 一句话 critical voice ③ 反思要具体

● 链条 1 · 内容题 Q1–Q4

Q1 — Tell me about your topic? (主题 + 为什么重要)

「futsal 能否当 football 的 donor sport，技能是否真的迁移」

关键字：donor sport · complement · talent development

〔钩子〕→ …first, which skills?

Q2 — Which skills can transfer? (列技能 + 为什么)

Peña-Ardila 2026 盘点：passing · decision-making under pressure · close-control

理由：futsal 场地小、节奏快、逼抢紧

〔钩子〕→ …but is there real evidence?

Q3 — Is there real evidence? (报数字 + 一句批判)

Oppici 2018 (唯一实验/RCT) → 传球确实迁移，效应极大

Peña-Ardila meta (SMD 1.43) · Machado 2024 (决策技能)

critical voice：though most studies are still controlled settings, not real matches

〔钩子〕→ …but evidence matters only if we know how to train

Q4 — How would a coach use this? (方法 + 注意 + 自己想法)

核心：task constraints (改规则/场地尺寸)

注意：Nunes 2021 (儿童强/年长者弱) · Travassos (补充 ≠ 替代)

自己的 idea：the effect by playing position — nobody has tested it yet

※ 追问 (导师示范过，最可能出)

Which source was most useful / informative?

「Oppici et al. 2018 — the only experimental study; others are reviews or perceptions. Strongest direct evidence + shows how to train.」

● 链条 2 · 反思题 Q5–Q7 (Rolfe：What → So what → Now what)

Q5 — Most difficult? (What + So what，中性素材)

「从罗列 → synthesise」最难：先 study by study，后来才按 theme 分组

(旧素材 7→6 篇一句话带过即可，导师已说翻篇)

Q6 — What did you learn? (So what 为主)

学会 synthesise (按 theme 组织) · 学会评估证据质量 (对比 effect size)

Q7 — What would you do differently? (Now what，必答！)

更早定 inclusion criteria · 建 comparison table · 用同样 theme 方法做硕士课题

句式：If I did this again, I would… / I should have…

● 万能句备忘

口头引用：In a 2018 study, Oppici found that… (found=证据 / claimed=观点)

Critical voice：…though I should say most studies are still done in controlled settings.

反思三条铁律：Specific · Detailed · Thoughtful (空话 = 2 分)

● 红线

背答案 → 语言语法最多 1 分 (理解后用自己话重组)

反思缺 Now what → 扣分 (What+So what 但没 Now what = "Not quite")
